

# Huntsville Alabama L5 Society (HAL5)

Your local chapter of the  
**National Space Society**  
Presents

# Historical Trends in Technology

a Free public lecture by

**Mr. Mike Wright, NASA Marshall Historian**

A discussion of how our perceptions of technology-including space-have changed over time and what that means for technology today. American attitudes toward technology have transformed over time. From embracing progress in the Age of Invention in the early 20th century to rejecting the effects of technology in the 1960s to rapid sharing of information in the Information Age, our relationship with technology have shaped our attitudes toward them and how we use them. What do these changes mean for the future, and how will they affect space program in particular?

**Thursday, September 6, 2007**

**7:00 pm to 8:30 pm** at the

**Huntsville/Madison County Public Library**

915 Monroe Street (corner of St. Clair Ave.), downtown Huntsville, Alabama

The public is invited. Admission is **FREE**. A social will follow the meeting.
